Introducing Searching Kitty: Enhance Your Puzzle Experience!

University of Washington, Bothell, WA - Searching Kitty is a captivating web-based game that brings the classic word search puzzle to life. Players are tasked with unveiling hidden words concealed behind a grid of tiles. Similar to a cat's pursuit of prey, the game requires keen observation and a swift touch to uncover words lurking within the puzzle. Engage your mind and immerse yourself in the thrill of uncovering hidden words within a grid of letters.

Get ready to dive into the captivating world of Searching Kitty - our new game designed to enrich your Roaming Kitty journey. We've designed it with an aim to enhance user engagement through visually pleasing aesthetics, vibrant colors, and innovative features. You'll find various difficulty levels and an integrated hint system, allowing you to adjust the gameplay to match your comfort. Stuck in a puzzle? Our subtle clues are ready to guide you!

As you navigate through Searching Kitty, you aren't just conquering puzzles but also accumulating reward points with each play. These aren't ordinary points! They unlock a wealth of exciting rewards that elevate your Roaming Kitty experience. From exclusive VIP passes to unique peripheral products, the points you earn introduce new, thrilling dimensions to your Roaming Kitty journey. So why wait? Dive in, start playing, and relish the rewards that await you. Your Searching Kitty adventure begins now!
